next year engrossed the attention of El Paso's club women Wednesday afternoon at their meeting in the chamber of commerce building.

The election of officers was by acclamation. Mrs. Joseph Dwyer presented the nominations, as chalmann of the nominating committee. These were: Mrs. W. L. Foxworth, chairman; Mrs. J. R. McLeod, vice chairman; Mrs. J. R. McLeod, vice chairman; Mrs. F. B. Magruder, secretary; Mrs. W. A. Beeson, treasurer, Mrs. T. C. McLeod's paper on "George Bernard Shaw, humorist, philosopher and cynic," was read by Mrs. A. P. Averlli. The paper presented in a capable way, showing the career of the Irish author in his influence upon contemporary authors of England, and also the influence of England on him and his work. Mrs. McLeod declared Shaw the greatest influence on English literature since Oscar Wilde, and particularly commented upon his satire and criticism of English conventions.

Mrs. Claude Berry talked upon Shaw's play, "Man and Superman." Mrs. Berry showed a very complete grasp of the play and the authors idea with their philosophy and mental stillude toward life and in outlining its principal characters and the action of the niot she read extracts from

The program was one of the most interesting given this year. Following the close of the program was a general discussion of study subjects for next year's work. Mrs. S. J. ### This Skin Peeler All the Rage in Society

There is a growing tendency among women of culture and fashion to pay more attention to hygienic means of preserving their charms. The advent of mercolized wax doubtless has been largely responsible for this. This remarkable substance produces complexions so natural in appearance, so magnetically beautiful, artificial complexions are no longer desired. Instead of "doctoring" an offensive skin, the skin is peeled off. The wax peels the skin so gradually, in such fins particks, no discomfort is experienced. The fresher, younger skin beneath, wholly in evidence within a week or two, is lily white satiny seft and smooth. It's not a patched-over complexion, but a patched-over complexion, but a brand new one. That's why mercolized wax has become such a raspe among wax has become such a rage among suclety folk. The wax is put on nights like cold cream and washed off morn-

Another bygienic treatment now much in favor is one to remove wrinkles, made by dissolving 1 oz powdered saxolite in 1-2 pint witch hazel. Used

Here is a toilet help you should remember, because of may at some time he the means of saving you from embarrassment: To quickly and painlessly remove hair or fuzz from chin, lip or cheek, apply a thick paste made by mixing together powdered delatone and water. Let this remain on the hairy surface about 2 minutes, then rub off, wash the skin and let the hairs have vanished. This treatment is entirely harmless, but caution should be used to see that you get delatone.—Advertisement.

Mrs. Joseph Dwyer suggested that more of the programs be given to current events, to things that were of vital importance in the living present, and not to so much work of the past that would require so much research.

This idea of having all the club work tend to better inform the club work tend to better inform the club women upon uplodute problems, writings and music proved the general idea of the club.

Mrs A. P. Averill, the retiring president of the club, suggested a study of modern political science, saying that current events could be included under this toolc.

of modern political science, saying that current events could be included under this topic.

Mrs. Olga Kohlberg commended this suggestion. saying that a knowledge of this subject would better equip women for the full rights of citizenshib, which must eventually come.

Mrs. Chaude Berry also spoke on the idea of studying only what is going on in the present instead of giving so much time to things of the past.

Mrs. W. S. Valentine susgested that she would like to see a study of the diplomatic service of our country and foreign countries, and the requirements of the service in the club. She also suggested that less formality in the club programs, advocating more general discussion and the elimination of set, prepared papers.

Mrs. S. Aronson, while agreeing with the idea of less formality, was in favor of well studied-out papers, at intervals. Mrs. L. Mundy suggested more parliamentary drilling.

Mrs. Olga Kohlberg suggested that this be done in a cluss gustide of the general club meetings.
